

Here is your AutoCard

Thank you for buying AutoCard, the perfect card for people who travel with us regularly. You get the same special price from your very first trip. The card is valid for the Trelleborg–Sassnitz and Trelleborg–Rostock routes. Please read the rules for the card below.

- The value of the AutoCard is SEK 8,500 when you buy it. The card entitles you to a discount of 15% on the standard single ticket price (excludes special tickets).
- The card is valid for passenger cars, max 6 m long including 9 people.
- When you use the card, the discount is taken from the passage price for the departure you have chosen. The remaining balance is shown on the receipt you are given when you use the card.
- There is no time limit on the card.
- The card can only be used for buying passenger car tickets, not for shopping on board.
- The card does not guarantee a place on board.
